GAME MODEL

- The pressing trigger is the **pass into the centre back** – the full back then becomes the pressing target.
- The centre is kept compact, play is consistently **forced wide** and pressed at high intensity.
- In build-up, one side is deliberately **overloaded** (CB, FB, inverted winger, No. 6).
- In open play they switch to a **3-4-3** – No. 6 drops into the back three, No. 7 joins the front three as an inverted winger.

KEY PLAYERS

11 **TARGET STRIKER**
Sought out in almost every attack. Record: **4 GAMES · 8 GOALS**.

8 **ATTACKING MIDFIELDER**
Plays balls in behind the back line, one-touch in the final third. Frequent link-up with No. 11.

7 **DRIBBLER**
Holds the width, strongly left-footed – expect him to cut inside.

TEAM TACTICS

MATCH ANALYSIS

Out-of-possession behaviour, build-up and resulting opportunities.

OUT OF POSSESSION · 1-4-1-3-2

TRIGGER		PRESSING TARGET		GOAL
PASS TO CB	→	**FULL BACK**	→	**WIN THE BALL WIDE**

The centre is kept compact, play is forced wide and pressed through at high intensity as a compact unit.

BUILD-UP · 1-4-2-2-2

01 One side is overloaded – centre back, full back, inverted winger and No. 6.

02 The preferred passing option is the advanced full back.

03 Targeted runs into the channel between the opposing full back and centre back.

In open play: switch to a 3-4-3 – No. 6 drops into the centre of the back three, No. 3 and No. 2 become wide midfielders, No. 7 completes the front three as an inverted winger.

OPPORTUNITIES & RECOMMENDATIONS

A **SPACE BEHIND THE PRESS**
When they press out wide, zone D2 / the No. 8 space opens up – switch play quickly and exit in behind their back line.

B **COVER WHEN THE FULL BACK STEPS OUT**
When our full back steps out, the No. 6 must fill the space immediately; on the far side, the No. 6 and winger shift across.

C **ISOLATE TARGET STRIKER NO. 11**
Deny No. 11 his first touch or double up immediately – cut the link to No. 8.
